From:
one faculty representative whose normal activities do not depend on or involve animal use for research, teaching or testing;

To:
two one faculty representatives whose normal activities do not depend on or involve animal use for research, teaching or testing;

Rationale:
Given that AU has a small complement of faculty who have in the past, or currently, conduct animal research and the requirements of the Canadian Council on Animal Care on membership, it is necessary to ensure that a sufficient number of animal users are represented on the AU committee. By removing the suggested maximum (2 terms) regarding time served on the committee, and reducing the number of animal users required on the committee (from 3 to 2), the AU Animal Care Committee can ensure expertise on the committee each year while also taking into consideration the commitment constraints of faculty (e.g., leaves, sabbaticals, etc).

Motion carried.
